

Formandens tanker

Kære medlemmer!

DMTS-bestyrelsen puster ud efter et veloverstået Landsmøde i Vingsted. Alt klappede med et fagligt spændende program og mange deltagere og udstillere. Efter tilbagemeldingerne at dømme så var vores beslutning om at skifte sted for afholdelse af Landsmødet rigtig. Vi ser allerede frem til næste års landsmøde som også bliver i uge 41 OG i Vingsted.

Dette nyhedsbrev har udsyn, forstået på den måde at vi peger på internationale muligheder for vores medlemmer, dels i form af næste års internationale scoop af en BME-konference, denne gang i skønne Prag i juni 2018. Men også muligheder for at nominere internationale prismodtagere indenfor vores branche.

Læs lystigt videre i nyhedsbrevet, og HUSK, at du også kan bringe relevante nyheder til vores 700 medlemmer og 100 firmamedlemmer.

Vores kasserer og sekretær Per Overgaard Rasmussen - por@dmts.dk- koordinerer gerne input til nomineringer med mere og tager også med glæde imod nyheder til næste nyhedsbrev.

Gode hilsner
Kim Dremstrup
Formand

IFMBE

International Federation for Medical and Biological Engineering

A member of the International Union on Physical and Engineering Science in Medicine (IUPESM)

Dear colleagues and friends,

With this letter, we would like to draw your attention to the top event in your professional field for 2018 - World Congress on Medical Physics and Biomedical Engineering to be held in Prague, the capital of the Czech Republic, on June 3 - 8, 2018. The Congress is jointly organized by the Czech Association of Medical Physicists (CAMP) and the Czech Society for Biomedical Engineering and Medical Informatics (CSBMEMI) on behalf of the International Union of Physical & Engineering Sciences in Medicine (IUPESM) and its principal member organizations – the International Federation for Medical and Biological Engineering (IFMBE) and International Organization for Medical Physics (IOMP).

This triennially organized joint meeting of medical physicists, biomedical engineers and adjoining health care professionals is a unique opportunity to liaise with your professional colleagues from all over the world, learn and share your knowledge, and discuss the latest research outcomes and technological advancements as well as new ideas in both medical physics and biomedical engineering field. Besides the purely scientific and technological topics, the 2018 Congress will also focus on other aspects of our professional involvement in health care, such as the education and training, the accreditation and certification, the health technology assessment or the patient safety.

No special introduction is probably needed for the Congress venue – the city of Prague. You can find here all kinds of historical heritage some of them dating back ten centuries as well as cultural treasures of our times, worth of exploration in a spare time during the Congress. Prague is also regular destination of most worldwide operating airlines.

For more detailed information and questions please refer to the IUPESM 2018 Congress web page: www.iupesm2018.org

Your active contribution is welcome and we look forward to welcoming you to our beautiful city Prague in 2018. With our most sincere thanks for sharing this message with your colleagues, both members and non-members of your national MP and/or BME society, and with kind regards

Jaromír Cmíral, Ing., PhD., DSc.
COC Co-chair (Biomedical Engineering)

Libor Judas, RNDr., PhD.
COC Co-chair (Medical Physics)

Nomination deadline extended to 5 December 2017

CALL FOR AWARDS 2018

New Deadline: 5 Dec 2017

IFMBE recognizes the Biomedical Engineering professionals for their contributions to the Biomedical Engineering field. The awards are generally presented every three years on the occasion of the World Congress.

Nominations for the following awards are now open!

List of Awards:

- Otto Schmitt Award
- Vladimir K. Zworykin Award
- John A. Hopps Distinguished Service Award
- IFMBE Honorary Life Members
- IUPESM Awards of Merit
- Laura Bassi Award
- Young Investigators Award
- The IFMBE-IAMBE Early Career Award
- The IFMBE-WHO Innovative HealthTech Awards
- James Edward Zimmerman Prize

[>> Awards Details](#)

NOMINATION REQUIREMENTS

Nominations may be made by IFMBE entities, affiliated member societies, or a group of at least five distinguished IFMBE members.

Nominees must be members of an IFMBE affiliated organization.

A Curriculum Vitae is to be submitted together with a half-page biography, a photo, and a one-page write-up on the significant contributions made in relation to the specific criteria for the award for which nomination is made.

Submit all nominations to:

Prof. Shankar Krishnan,
Vice-President, IFMBE
Chair, IFMBE Awards Committee
Email address: ifmbe@yahoo.com

International Federation for Medical and Biological Engineering

A member of the International Union on Physical and Engineering Sciences in Medicine

Dear Colleagues,

We appreciate your kind input to any or all of the following three surveys conducted by the World Health Organisation. The online survey will be opened till **15th November 2017**.

2017 Global Survey on Professional and Academic Profiles on Biomedical Engineers and Technicians

<https://extranet.who.int/dataform/155764?lang=en>

After the successful release of the book “Human resources for medical devices, the role of Biomedical Engineers”, supported by WHO, IFMBE and many colleagues around the world, we now need to review and update the numbers of biomedical engineers and technicians in every country as of 2017. Your input is thus much welcome and needed.

If you have information about the total number of biomedical engineers and technicians in your country, please choose the option “Country” on the first page of this survey. If you only have data specific to your professional society or your university, please choose the corresponding option on the first page of the survey.

Survey on Donations of Medical Equipment

https://extranet.who.int/datacol/survey.asp?survey_id=3389/

This work was initiated by WHO intern D. Sneddon with the intention to document good and inappropriate practice in medical equipment donations, and in particular the issues caused by donation of bad equipment. We would like to continue this work and thus need evidence and numbers. If you have ever received donated devices, please share your experience by filling in the survey above as precisely as possible. The survey is available in four languages: [English](#), [French](#), [Portuguese](#) and [Spanish](#). In order to fill in the survey, you need to log in with the information provided above (username: guest, password: guest)

Survey on Technical Guidance for Hospitals at the XXIst Century

<https://extranet.who.int/dataform/582369?lang=en>

In an interdepartmental work in WHO, we are collecting and organizing information and guidance available to plan and to manage hospitals and other health care facilities. If you have country expertise or academic documents that can help elevate this work in WHO, please submit it in the survey. We will use to populate the WHO new website on Hospitals in the XXI Century and in the country data. The deadline is 15 November, 2017.

Hvad går du og arbejder med? Fortæl os andre om det!

Vi er jo meget afhængige af spændende tip, artikler og kronikker fra jer medlemmer til vores blad, Medicoteknik. Så er din arbejdsplads i gang med et interessant projekt, eller er der noget fagligt, du brænder for, så send mig endelig en mail på : naia@texthuset.dk og fortæl kort om det - og om det er noget, du/I kan skrive lidt om selv. Så kan vi aftale nærmere

vedr. artiklens længde og afleveringstidspunkt.

På forhånd tak!

Naia Bang, redaktør
